3 EASY WAYS TO ORDER

 MOBILE APP

 1.800.431.3000

 [hdsupplysolutions.com](https://hdsupplysolutions.com)

Balanced water is critical to pool quality and swimmer comfort.

**Optimum balance levels:**

- pH Balance: 7.4-7.6
- Alkalinity: 80-120 ppm
- Calcium Hardness: 200-400 ppm

**Why you need to balance your pool:**

- To maximize chlorine effectiveness
- To prevent eye and skin irritation
- To limit pool equipment damage

**STEP**

Salt Pool  
Compatible

Treats the following:

See pages 4-5 for troubleshooting tips.

## BALANCE THE WATER

### AquaGuard® 1 Gallon Muriatic Acid

- Powerful pH Reducer Helps Prevent Scaling Caused By Calcium-Based Chlorine And/Or Hard Water
- Ready To Use
- Not Available In All Regions

**116608**  
Pkg Of 2

### AquaGuard® 1 Gallon Calcium Hardness Reducer

- Reduces The Calcium Hardness Of Pool Water So That A Proper pH Balance May Be Obtained
- Reduces Scale Formation

**116604**

### AquaGuard® 25 Lb Calcium Hardness Increaser

- Prevents Corrosion Of Pool Surface And Equipment Caused By Low Calcium Levels
- Fast-Dissolving

**208511**

### AquaGuard® 1 Gallon Metal Out

- Prevents And Stops The Growth Of Metal Stains, Discoloration And Scale Formation
- Treats Up To 40,000 Gallons

**116607**

### AquaGuard® 30 Lb pH Up Pail

- Quickly Raises pH And Alkalinity
- Fast-Dissolving Granular Pool Soda Ash

**116600**

### AquaGuard® 30 Lb pH Down Pail

- Quickly Lowers pH And Alkalinity
- Fast-Dissolving Granular Pool Acid

**116601**

### AquaGuard® 30 Lb Alkalinity Booster Pail

- Buffers Pool Water For Better pH Control
- Increases Total Alkalinity Of Pool Water And pH Of Pool Water
- Fast-Dissolving Sodium Bicarbonate

**116602**

### AquaGuard® 8 Lb Stabilizer Conditioner

- Shields Chlorine From The Destructive Effects Of Sunlight
- Reduces Chlorine Consumption
- Essential If Liquid Or Calcium-Based Chlorines Are Used

**117943**

Chlorine makes the water clean and clear for swimmers.

Why you need to chlorinate your pool:

- Chlorine disinfects the water
- It kills both bacteria and algae
- 2.0-4.0 ppm levels are optimal

Salt Pool  
Compatible

Treats the following:

See pages 4-5 for troubleshooting tips.

STEP

## CHLORINATE YOUR POOL

CASE  
OF 3

### AquaGuard® 1 Gallon Liquid Chlorine

- Antimicrobial, Kills Algae And Bacteria
- Will Not Cloud Pool Water
- Safe For All Types Of Pools
- Easy To Use

114222

### AquaGuard® 40 Lb Pool Salt

- For Use In Pools And Spas With Salt Chlorinators
- Brands May Vary By Region
- Not Available In All Markets

116038

## Saltwater Pool Care

Saltwater pools rely on salt chlorine generators for sanitization, minimizing the amount of chemical and chloramine buildup in the water. AquaGuard® Balance, Clarify, Algae Control, and Shock chemicals are compatible with saltwater systems.

### How To Maintain A Saltwater Pool:

- Test pool water weekly for free chlorine and pH levels
  - Free chlorine levels should be within 2.0-4.0 ppm
  - Optimal pH level is 7.4-7.6
- Use test strips monthly to test pool water for salt, alkalinity, stabilizer, and calcium
- Open and visually inspect cell every three months for maximum performance
- Ensure filter, pump, and skimmer are clean
- Make sure water flow is at optimal levels

### AquaGuard® Power 99 3" 50 Lb Chlorine Tablets W/ Shock

- Sanitizes And Suppresses Algae And Bacteria
- 99% Active Ingredient
- Individually Wrapped
- Slow-Dissolving For Long-Lasting Sanitation
- Jumbo 8 Oz Tablets

502074

### AquaGuard® 1" 50 Lb Trichloro Chlorine Tablets

- Stabilized, Slow-Dissolving Tablets For Long-Lasting Chlorine Residual
- Premium Quality
- Manufactured To Resist Crumbling
- Ideal For In-Line Chlorinators

116611

### AquaGuard® 50 Lb Dichloro All-In-One Chlorine Granules

- Will Not Cloud Water, Raise pH Or Create Calcium Deposits On Tile
- 99% Sodium Dichlor
- Super-Concentrated Formula
- Fast-Dissolving

116613

### AquaGuard® 50 Lb Bromine Tablets For Pools And Spas

- Perfect For Indoor Pools, Spas And Tubs
- Slow-Dissolving For Controlled Release
- Sanitizes And Prevents Algae Without Chlorine Odor

116615

## 3 STEP

Periodic shocking removes waste materials like suntan oils, perspiration, body oils, and other organic waste.

For best results, balance pH to 7.4-7.6 before shocking.

Why you need to shock your pool:

- To bring up chlorine and free chlorine levels
- To disinfect the water
- To restore water clarity

Salt Pool Compatible

Treats the following:

See below for troubleshooting tips.

## SHOCKING THE WATER

### Add Super Quick Shock Now, Swim 15 Minutes Later

Use Super Quick Shock as a weekly shock treatment, and swimmers can enter the pool after just 15 minutes.

#### AquaGuard® 1 Lb Trichloro Super Shock Quick

- Controls Algae And Bacteria
- Quick Chemical Boost
- Super-Concentrated Formula
- Each Packet Treats 24,000 Gallons
- Reduces Other Chemical Needs

116647  
Pkg Of 24

#### AquaGuard® 50 Lb Sodium Persulfate Non-Chlorine Shock

- Eliminates Odor And Oxidizes Organic Buildup
- Does Not Affect Chlorine Levels, So Swimmers Can Enter Pool Immediately After Application
- Helps Clarify Water And Improve Filtration

116621

#### AquaGuard® 1 Lb Calcium Hypochlorite Shock

- 59.5% Calcium Hypochlorite
- Swimming Pool Water Oxidizer
- Great For Shocking Swimming Pool Water
- Kills Bacteria, Destroys Organic Contaminants, Controls Algae
- Brand May Vary By Region

114009  
Case Of 24

#### AquaGuard® 95 Lb Blended Calcium Hypochlorite

- Kills Bacteria, Destroys Organic Contaminants, Controls Algae
- 59.5% Calcium Hypochlorite
- Swimming Pool Water Oxidizer
- Great For Shocking Swimming Pool Water
- Brand May Vary By Region

114008

## Troubleshooting Tips

### CLOUDY WATER

Ultra Clarifier (116631) will aid in removing particles, but the source of the problem should also be determined.

1. Check filtration system for malfunction.
2. Test pH and total alkalinity and adjust if necessary. Adjust alkalinity with Alkalinity Booster (116602/116636). Adjust pH using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
3. If total alkalinity and pH are correct, shock pool water with Super Quick Shock Pouch (116647) or Non-Chlorine Shock Treatment (116621) and run the pump on a longer cycle.

### EYE/SKIN IRRITATION

pH is out of proper range.

1. Test pH and adjust using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
2. If pH is correct, shock pool water with Super Quick Shock Pouch (116647) or Non-Chlorine Shock Treatment (116621) and run the pump on a longer cycle.

### CHLORINE ODOR

Chloramines present due to inadequate levels of free chlorine.

1. Test pH and adjust using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
2. Shock pool water with Super Quick Shock Pouch (116647) or Non-Chlorine Shock Treatment (116621) and run the pump on a longer cycle.

### GREEN ALGAE

Caused by inadequate chlorine levels.

1. Brush algae off pool surfaces.
2. Test pH and adjust using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
3. Shock pool water with Super Quick Shock Pouch (114009) or Non-Chlorine Shock Treatment (116621), using three times the normal shock dosage.
4. Run the pump on a longer cycle.
5. Treat with Green Algaecide (116625).

## 4 STEP

Algaecides work hand in hand with chlorine and shock treatments to prevent and remove algae and bacteria buildup.

To treat algae, you must first identify the type of algae present, and then use the task-specific algaecide to prevent or treat the problem.

**When to apply algaecides:**

- When visible algae is present
- As part of a routine maintenance program
- Prior to the start of pool season

Salt Pool  
Compatible

Treats the following:

See below for troubleshooting tips.

## SELECT ALGAE CONTROL BASED ON THE TYPE OF ALGAE

### AquaGuard® 1 Gallon Algaecide And Clarifier

- Ready-To-Use
- Combination Algaecide And Clarifier For All Pool Types
- Treats Up To 53,000 Gallons (Per Gallon)
- Nontoxic, Nonfoaming

**116623**  
Case Of 6

### AquaGuard® 1 Gallon 60% Algaecide

- Concentrated Formula
- Top-Selling Premium Algaecide In The Industry
- Nontoxic, Nonfoaming, Nonmetallic, Poly Blend
- Treats And Prevents All Types Of Algae

**116624**

### AquaGuard® 1 Gallon Green Algaecide

- Concentrated Formula
- Most Effective Against Green Algae
- Treats Up To 320,000 Gallons
- Nontoxic, Nonfoaming

**116625**

### AquaGuard® 1 Gallon Phosphate Remover

- Concentrated Formula
- Eliminates Phosphates, Which Are The Food Source For Algae
- Impedes The Ability Of Algae To Grow

**116627**

## Troubleshooting Tips

### BROWN/MUSTARD ALGAE

Appears in patches. It brushes away easily, but reappears quickly.

1. Brush algae off pool surfaces.
2. Test pH and adjust using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
3. Shock pool water with Super Quick Shock Pouch (114009) or Non-Chlorine Shock Treatment (116621), using three times the normal shock dosage.
4. Run the pump on a longer cycle.
5. Treat with Mustard Algaecide (324378).

### BLACK ALGAE

Appears as black spots. Note: These instructions and Black Algaecide may only be used on unpainted, concrete-type pools.

1. Brush pool surfaces with wire algae brush.
2. Test pH and adjust using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
3. Shock pool water with Super Quick Shock Pouch (221311) or Non-Chlorine Shock Treatment (116621), using three times the normal shock dosage.
4. Run the pump on a longer cycle.
5. Treat with Algaecide 60% Concentrate (116624) for maintenance.

### BLUE/GREEN WATER

Water looks blue/green.

1. Test pH and adjust using pH Up (116600) or pH Down Dry Acid (116601) or Muriatic Acid (116608).
2. Use Ultra Clarifier (116631) and vacuum any fallout to avoid staining.

**SAFE FOR  
SALTWATER POOLS**

All AquaGuard® chemicals are compatible with saltwater systems.

## 5 STEP

Clarifiers keep your pool crystal clear by combining small particles into large ones for easy filter removal.

### When to use clarifiers:

- When water is cloudy
- After algaecide treatment
- Prior to the start of pool season

Salt Pool  
Compatible

Treats the following:

See pages 4-5 for troubleshooting tips.

## CLARIFY THE WATER

### AquaGuard® 1 Gallon Ultra Pool Water Clarifier

- Clears Cloudy Water
- Use 2 Oz Per 10,000 Gallons

116631

### AquaGuard® 1 Gallon Tile And Spa Cleaner

- Dissolves Scale And Oils On Ceramic, Porcelain And Fiberglass Pools
- Clings To Surfaces For Easy Cleaning
- Easy Rinse Formula

116632

### AquaGuard® 1 Gallon Filter Cleaner And Degreaser

- Safe For All Types Of Filters
- Removes Grime, Oil And Organics
- Helps Restore Filter Efficiency

116633

### AquaGuard® 1 Gallon Spa Water Defoamer

- Eliminates And Prevents Foaming In Spas When Spa Jets Are In Use
- Safe For All Types Of Spas

116634

## Improve Your Pool Care Skills With Our Training Classes

### Swimming Pool Maintenance Class

Learn how to professionally manage and maintain one of your property's most valuable amenities—the swimming pool. This three-hour class is designed to give you an overview of daily pool operations and attendance is free.

### Topics Covered

- Chemical testing and water balance
- Filtration systems and mechanical maintenance
- Liability and safety aspects of pool management
- Chemical safety

### ENROLL TODAY

For more information, visit  
[hdsupplysolutions.com/training](https://hdsupplysolutions.com/training)  
or call 1.800.431.3015, ext. 12465.

### PHTA® Certified Pool Operator® Certification Class\*

Learn the skills to maintain your pool and eliminate expensive outsourcing costs. Upon successful completion of this in-depth, two-day course, you will earn a certification that is recognized by the Pool & Hot Tub Alliance (PHTA®, formerly NSPF® and APHA®). HD Supply provides the training and proctors the exam.

### Topics Covered

- Pool calculations and formulas
- Chemical dosage formulas
- Disinfection (superchlorination)
- Water chemistry and balancing
- Filtration
- Pool safety standards
- Identifying pool hazards
- Understanding federal and state codes

\*Course fees apply. A passing score of 75% is required to receive certification.

## 1 Lb Henry® Underwater Tile Repair

- Use For Underwater Tile Repair In Swimming Pools And Spas
- Allows For Repairs To Be Done Without Draining The Water
- 24-Hour Dry Time
- Use With All Tile Types
- Covers Approximately 2 Sq Ft

△ CA Residents, See Warning 1

807017

## Yellow Gone® 2 Lb Fast Acting Pool Cleanup For Green And Mustard Algae

- Model 23502ptm
- Helps Eliminate Green And Mustard Algae
- Safe In Any Gunite, Vinyl, Plaster Or Fiberglass Pool
- Compatible With Saltwater Pools
- Fast-Acting Pool Cleaner; Dissolves Immediately

324378

## Advantis Technologies™ 32 Oz Super Blue Water Clarifier

- Clears Cloudy Water Fast & Prevents Future Hazy Appearance
- Concentrated Formula - Only 1 Oz. Treats 5,000 Gallons
- Effective At Varying Temperature Levels & Range Of Chemical Levels
- Use With All Filter Types - Will Not Clog Filters
- Reduces Sanitizer Demand By Removing Dirt Particles

706602

## Pentair Amerlite® 500 Watt Stainless Steel 120 Volt White Incandescent Pool Light W/ 100 Ft Cord

- 500 Watt, 120 Volt
- 100' Cord
- Features A Stainless Steel Shell
- 8.38" Prismatic Tempered Glass Lens

123269

## R-40 500 Watt Clear Swimming Pool Bulb

- 130 Volt
- Medium Base
- 2,000 Average Hour Life
- 5" Diameter

310166

## Universal Pool Light Adapter Ring

- #500P Model Adapts To Same Lights That Fit All 500, 500B And 500C Models
- White

170008

# WATER TESTING

## Taylor® 2 Oz Pool Test Kit

- DPD
- Tests For Free And Total Chlorine, Bromine, pH, Acid/Base Demand, Total Alkalinity, Calcium Hardness And Cyanuric Acid

114219

## Taylor® Service Complete K-2006C FAS-DPD Chlorine Test Kit

- 3/4 Oz Reagents
- DPD
- Free And Total Chlorine, Bromine, pH, Acid And Base Demand, Calcium Hardness, Total Alkalinity And Stabilizer Levels
- Commonly Used By Service Techs, Commercial Pool Operators And Health Department Officials

118031

## Taylor® Commercial Pool Inspector's Test Kit

- 3/4 Oz Reagents
- DPD
- Tests For Free And Total Chlorine, pH, Acid/Base Demand And Cyanuric Acid
- Commonly Used By Health Inspectors For Public Pools/Spas

111316

## Lamotte ColorQ Pro 7 Test Kit

- Features A Photometer That Gives You A Digital Reading Of Test Results
- Water-Resistant Carrying Case Provided
- Tests Free Chlorine, Total Chlorine, Bromine, pH, Alkalinity, Calcium Hardness, And Cyanuric Acid
- Uses Liquid Reagents For All Test Factors Except Cyanuric Acid, Which Uses Tablets

## Taylor® 2 Oz Reagents

114621 R-0001-C, Reagent #1 DPD  
114622 R-0002-C, Reagent #2 DPD

114624 R-0004-C, Phenol Red #4  
114633 R-0013-C, Cyanuric Acid

## Taylor R-0870-I, DPD Powder

- DPD Powder Chlorine Test
  - 10 Grams
- 114265

## Clorox Pool And Spa 6-Way Test Strips

- Tests Total Chlorine, Free Available Chlorine/Bromine, pH, Total Alkalinity, Total Hardness, Stabilizer

114119  
Pkg Of 50

## Water Testing

We recommend testing commercial pools daily. Be sure to test pH levels, chlorine, total alkalinity, calcium hardness, and more. Enter your results into My Pool Testing™, our online tool, for product recommendations and dosing instructions: [hdsuppliesolutions.com/poolwatertesting](http://hdsuppliesolutions.com/poolwatertesting)

### Recommended Levels:

- pH: 7.4-7.6
- Chlorine: 2.0-4.0 ppm
- Total Alkalinity: 80-120 ppm
- Calcium Hardness: 200-400 ppm

### Test Kit Storage Tips

Test kit reagents typically last only one season and cannot be mixed with another test kit. Be sure to store in a cool, dark location for longer shelf life.

## 2-Year Manufacturer's Warranty For Pentair Pumps

### POOL PUMPS

PART #	DESCRIPTION
<b>A</b> 502544	Pentair® IntelliFlo® Variable Speed Pool Pump - High Tech Motor Reduces Noise And Vibration For Greater Efficiency And Longer Life - Variable Speed Technology Provides Significant Energy Efficiency - Provides Energy Savings Compared With Traditional Pumps
<b>B</b> 212085	Pentair® Superflo Variable Speed Pool Pump - Ideal For New And Standard Pool Pump Replacement For Pools Requiring Up To A 1.5 HP Pump - Variable Speed Technology Provides Significant Energy Efficiency - Superior Drop-In Replacement for the Hayward® Super Pump® And Other Single-Speed Pumps
<b>C</b> 116906	Pentair® IntelliFlo® Vacuum Release System And Pump - ASME/ANSI A112.19.17 (VGB) Compliant - Detects Blockage And Automatically Shuts Off Pump - Variable Speed Pump Achieves 30-90% Energy Savings - One Size Fits All 0.5 HP To 3.0 HP - Advanced Technology Saves Lives And Saves Money
<b>D</b> 101530	Pentair® 5 hp 208-230 Volt WhisperFloXF® Single-Phase Pool Pump - Easy-Carry Handle, Easily Removable, Ergonomic Lock Ring And See -Through Lid For Easy Basket Inspection - Drop-In Replacement For Original WhisperFlo And Optional Riser Plate Enable Easy Challenger Replacement

### MOTOR REPLACEMENTS

#### PART # UP-RATED SQUARE FLANGE POOL REPLACEMENT MOTOR

<b>E</b> 114198	1 HP Square Flange Pool Replacement Motor - Up-Rated - Single Phase - 115/230 Volt - Service Factor Of 1.25 - Total Output=1.25 HP - Mfg #B853
<b>F</b> 114199	1-1/2 HP Square Flange Pool Replacement Motor - Up-Rated - Single Phase - 115/230 Volt - Service Factor Of 1.1 - Total Output=1.65 HP - Mfg #B854
<b>G</b> 114204	2 HP Square Flange Pool Replacement Motor - Up-Rated - Single Phase - 230 Volt - Service Factor Of 1.1 - Total Output=2.20 HP - Mfg #B855

#### PART # FULL-RATED SQUARE FLANGE POOL REPLACEMENT MOTOR

<b>H</b> 114340	1 HP Square Flange Pool Replacement Motor - Full-Rated - Single Phase - 115/230 Volt - Service Factor Of 1.65 - Total Output=1.65 HP - Mfg #B848
<b>I</b> 114345	1-1/2 HP Square Flange Pool Replacement Motor - Full-Rated - Single Phase - 230 Volt - Service Factor Of 1.5 - Total Output=2.25 HP - Mfg #B849
<b>J</b> 114205	2 HP Square Flange Pool Replacement Motor - Full-Rated - Single Phase - 230 Volt - Service Factor Of 1.3 - Total Output=2.60 HP - Mfg #B748

**E - J**

IMPORTANT NOTE: Always replace the pump seal (114528) when installing a new motor to avoid severe damage to the system.

### SALT CHLORINE GENERATORS

#### PART # UP-RATED SQUARE FLANGE POOL REPLACEMENT MOTOR

<b>K</b> 123160	Pentair IntelliChlor® IC40 And IC60 Salt Cells Chlorinator Power Center - 110V Or 220V Wiring - Certified To UL 1081 Standard For Safety And NSF Approved - Includes Wall Mounting Brackets - Mfg #520556
<b>L</b> 123158	Pentair IntelliChlor® IC40 Cell Only Salt Chlorinator - Uses Pool Salt To Produce All The Chlorine A Pool Needs Safely, Effectively And Automatically - Push-Button Operation And Easy-To-View Displays Enable Fast Checking Of Salt Levels, Cell Cleanliness, Sanitizer Output And Water Flow - Automatic Shutoff Feature Protects The Unit And Prolongs Cell Life Under Low Water Temperature Conditions - Mfg #520555
<b>M</b> 123159	Pentair IntelliChlor® IC60 Salt Chlorinator - Uses Pool Salt To Produce All The Chlorine A Pool Needs Safely, Effectively And Automatically - Push-Button Operation And Easy-To-View Displays Enable Fast Checking Of Salt Levels, Cell Cleanliness, Sanitizer Output And Water Flow - Automatic Shutoff Feature Protects The Unit And Prolongs Cell Life Under Low Water Temperature Conditions - Mfg #521105

## ADA Pool Lifts

We carry ADA-compliant pool lifts from the leading national brands, including S.R. Smith and Aqua Creek.

### ADA Regulations:

- ADA requires an accessible means of entry and exit for people with disabilities. (This is a requirement for hospitality properties.)
- Pools with less than 300 linear feet of pool wall must provide one means of access.
- Pools with more than 300 linear feet of pool wall must provide two means of access.
- Any pool open to the public must comply with ADA pool lift regulation.

### Maintenance Tips

Routine lift maintenance and cleaning are essential for ensuring accessibility. Be sure to:

- Check and charge battery daily
- Test for normal operation
- Inspect for damage
- Clean seat, lift, etc. regularly
- Lubricate all gears monthly
- Inspect cable connections monthly
- Use a lift cover when not in use and avoid storing lift near pool chemicals
